

**FOR IMMEDIATE RELEASE**

## **Syntex Management Systems, Inc to Discuss Safety Performance at the Region VI VPPPA 22<sup>nd</sup> Annual Conference & Exhibition**

**Houston, Texas** (March 17, 2009) – Syntex Management Systems, Inc., world's leading provider of enterprise risk management solutions, is pleased to announce that Syntex is speaking at the Region VI VPPPA 2009 Conference and Exhibition being held on April 7-10, 2009 in Grapevine, Texas at the Gaylord Texan Resort and Conference Center. Joe Stough, Founder and Executive Vice President of Product Strategy for Syntex will present at the workshop entitled "Testing the Safety Performance Hypothesis," on April 8<sup>th</sup> from 11am – 12pm.

The conference focuses on professional development year after year for Safety, Health and Environmental (SH&E) professionals. With an emphasis on employee and company contribution, the conference features extensive educational and networking opportunities. A variety of available sessions will offer attendees a wealth of information by learning from successes of other organizations, understand the latest safety methodologies, and take away examples and strategies to use in their everyday workplace. Registered attendees will have the opportunity to come by Booth # 121 to learn how Syntex IMPACT ERM® helps global leaders continuously improve SH&E performance by extracting IMPACT Leading Indicators including SH&E Reporting Culture, Leadership Commitment & Involvement, Action Responsiveness, and Risk Reduction to identify and mitigate operational risks.

IMPACT ERM® Suite is a comprehensive Enterprise Risk Management solution that helps companies significantly improve Operational, Quality, Security, Health, Safety, and Environmental performance. Today, global industry leaders deploy IMPACT ERM® Suite worldwide to reduce losses and improve performance by automating regulatory reporting and enabling in-depth analysis of key operational metrics at site and enterprise levels. The software solution seamlessly integrates Incident, Near Miss, and Investigation Tracking with critical processes such as Corrective Action and Assessment Management, Knowledge Sharing, and Comprehensive Analysis and Reporting to achieve effective safety culture improvement and continual world-class SH&E performance.
