

FOR IMMEDIATE RELEASE

Syntex Management Systems, Inc to Showcase IMPACT ERM® at the American Society of Safety Engineers 2010 Safety Conference

Houston, Texas (June 11, 2010) – Syntex Management Systems, Inc., world's leading provider of enterprise risk management software solutions, invites you to join us at the ASSE Safety 2010 Conference & Exhibition in Baltimore, Maryland at the Baltimore Convention Center on June 13 – 15. Syntex will exhibit in booth #2441, and will be discussing how Syntex enables global leaders in the Energy, Utilities, Chemicals, and Process Manufacturing businesses to establish a common platform for mitigating risks that are discovered from both reactive (incident-based) and proactive (assessment based) business processes. Find out how these business leaders have improved their QHSE performance by using Leading Indicators of leadership and accountability.

The conference will focus on professional development for Quality, Safety, Health and Environmental (QSH&E) professionals by allowing them a platform to network with industry peers and share key issues, examples and strategies for success. With over 400 exhibitors, the Executive Summit Panel discussions, key issues roundtable discussions, the Academic Forum concurrent sessions and general keynote presentations from highly experienced speakers, the 2010 Safety conference is considered one of the primary sources for professional development.

For more information about Syntex software products and services or to schedule a one-on-one product demonstration at the ASSE Safety 2010 Conference and Exhibition, attendees may contact Syntex at info@syntexsolutions.com.

About Syntex Management Systems, Inc.
