

FOR IMMEDIATE RELEASE

Syntex to Speak Alongside Valero on Improving QHSE Performance with Leading Indicators at the ASSE Safety 2009 Conference

Houston, Texas (June 26, 2009) – Syntex Management Systems, Inc., world's leading provider of enterprise risk management software solutions, is pleased to announce that Joe Stough, Founder and Executive Vice President of Product Strategy for Syntex will co-present along with Ellen Williams, Director of Process Safety and Reliability at Valero in the workshop entitled "Improve QHSE Performance with Math-Proven Safety Leading Indicators" on June 30, 2009 from 3pm – 4:15 pm. The presentation will focus on examples of how global leading corporations utilize IMPACT ERM® Suite to improve their operational performance by shifting leadership focus toward leading measurements of performance. Syntex will also exhibit in booth #2246 at the ASSE Safety 2009 Conference in San Antonio, Texas at the Henry B. Gonzales Convention Center taking place June 28, 2009 – July 1, 2009.

IMPACT ERM® Suite, Syntex's flagship product is a comprehensive Enterprise Risk Management software solution that helps companies significantly improve Operational, Quality, Security, Health, Safety, and Environmental performance will be among those products presented. Today, global industry leaders deploy IMPACT ERM® Suite worldwide to reduce losses and improve performance by automating regulatory reporting and enabling in-depth analysis of key operational metrics at site and enterprise levels. The software solution seamlessly integrates Incident, Near Miss, and Investigation Tracking with critical processes such as Corrective Action and Assessment Management, Knowledge Sharing, and Comprehensive Analysis and Reporting to achieve effective safety culture improvement and continual world-class SH&E performance.

The conference will focus on professional development for Safety, Health and Environmental (SH&E) professionals by allowing them a platform to network with industry peers and share key issues, examples and strategies for success. With over 400 exhibitors, the Executive Summit Panel discussions, key issues roundtable discussions, the Academic Forum concurrent sessions and general keynote presentations from highly experienced speakers, the 2009 Safety conference is considered one of the primary sources for professional development.

For more information about Syntex software products and services or to schedule a one-on-one product demonstration at the ASSE Safety 2009 Conference and Exhibition, attendees may contact Syntex at info@syntexsolutions.com.

About Syntex Management Systems, Inc.

Syntex Management Systems, Inc. designs, develops, and delivers commercial software solutions for Operational and Enterprise Risk Management (ERM) in multiple industries. Syntex enables organizations around the world to reduce their exposure to loss while implementing continuous process improvement to create an annually renewable impact on their bottom line. Through continuously improving the execution of enterprise-wide management systems, our customers improve their performance across operational, quality, compliance, auditing, reputation, environmental, health, safety and security management functions.
