

**FOR IMMEDIATE RELEASE**

## **Brock Enterprises, Inc. Selects Syntex IMPACT ERM® Suite as its Environmental, Health & Safety Management Solution**

**Houston, Texas** (July 28, 2009) – The Brock Group (“Brock”), an industry leader among specialty craft providers, has selected the Syntex IMPACT ERM® Suite as their EHS management solution. Syntex Management Systems, Inc., world’s leading provider of Enterprise Risk Management (ERM) software solutions will implement its pre-configured version of the highly configurable and robust IMPACT ERM® Suite software solution. Based on the experience of many global companies’ successful implementations, the rapid-deployment will provide Brock with a seamless transition from the current practice of incident management and save both valuable time and resources.

Syntex IMPACT ERM® Suite provides a roadmap to continuously measuring and executing improvements to the key factors – Culture and Process – that drive risk reduction performance. The software will help Brock maintain accurate and timely data to meet critical business operational and reporting requirements. In addition, it will improve operational performance by shifting leadership focus toward leading measurements of performance. “As a result of Brock’s continued growth and acquisitions, our Health and Safety data resided in many separate systems with unique business processes. IMPACT ERM® Suite has the flexibility to handle our different processes, yet be managed from one centralized system,” said Tony Huval, Sr. Vice President of Environmental, Health & Safety Manager.

### **About The Brock Group**

Based in Houston, Texas, The Brock Group (“Brock”) is an international provider of industrial specialty services, including industrial scaffolding, insulation, coatings, and other complementary services, and is the nation’s leading multi-craft provider. Over its 60 year operating history, Brock has built an unrivaled reputation for integrity, quality service, and safety, and has become the service provider of choice for many of the world’s largest industrial processing companies. With more than 15,000 skilled employees, Brock serves a diverse set of markets, including the refinery, chemical, Canadian Oil Sands, fossil power generation, and nuclear power generation markets, among others. For more information about Brock, please visit [www.brockgroup.com](http://www.brockgroup.com).
