

FOR IMMEDIATE RELEASE

Syntex Management Systems, Inc. will be discussing Safety Excellence at the 2008 OSHA Oil and Gas Safety Conference

Houston, Texas (November 26, 2008) – Syntex Management Systems, Inc., world's leading provider of enterprise risk management solutions is pleased to be a part of the 2008 OSHA Oil and Gas Safety Conference being held December 2-3, 2008 in Houston, Texas at the Intercontinental Hotel. Syntex will be discussing the features and benefits of IMPACT ERM® Suite for the Exploration and Production industry and will highlight how world leaders have achieved operational and safety excellence with IMPACT. Registered attendees will have the opportunity to come by Booth # 109 and have a one-on-one demonstration of IMPACT ERM® Suite.

This is the first time OSHA has hosted a safety conference focused on the Exploration & Production industry. The 2008 conference theme is "People, Equipment, and Compliance," with an emphasis on interrelationships and the importance of seamless interaction to achieve safety excellence. At Syntex, we help our customers manage enterprise risks, protect their reputations, enable sustainable development, maintain regulatory compliance, and enhance corporate governance. Syntex is a pioneer in Enterprise and Operational Risk Management software and is renowned for helping industry leaders effectively manage continuous process improvement on a global scale. For more information on the advantages of using IMPACT ERM® be sure to attend the presentation entitled "Management of Change and Risk Management Process Overview and Integration Opportunities," at the OSHA conference on December 3rd at 10:30 am.

IMPACT ERM® Suite is a comprehensive Enterprise Risk Management solution that helps companies dramatically improve Operational, Quality, Security, Health, Safety, and Environmental performance. Today, global industry leaders deploy IMPACT ERM® Suite worldwide to reduce losses and improve performance by automating regulatory reporting and enabling in-depth analysis of key operational metrics at site and enterprise levels. The software solution seamlessly integrates Incident, Near Miss, and Investigation Tracking with critical processes such as Corrective Action and Assessment Management, Knowledge Sharing, and Comprehensive Analysis and Reporting for effective course correction and continual improvement.
